

## *COME AND TRY DAY* SATURDAY 28 JANUARY 2012

Saturday 28 January 2012 will be the second major CAMS NSW Come and Try Day hosted at Eastern Creek International Raceway.

The focus of the event is on attracting new people to motor sport by giving them a taste of a few of the different disciplines available. The event is an ideal opportunity for anyone with a passion for motor sport to get involved and find out exactly how to get started.

The CAMS NSW Come and Try Day is a great initiative aimed at promoting motor sport. The key disciplines involved include Supersprints, Motorkhana, and Motor Race, which will provide registrants with a firsthand opportunity to witness these disciplines and partake in the fundamental elements of Motorkhana and Supersprint.

Additionally, the event will include informational tours on the duties and responsibilities of various officials, including the fire and recovery marshals, administration, stewards, the event secretary and the clerk of course.

Four staggered groups will go through the different activities, with the activities running for approximately 3 and ½ hours. Morning and afternoon sessions are available. A car is the only requirement for you to participate in the Come and Try Day. If you already hold or have held a CAMS competitor or officials licence, then you are not able to participate in this day.

The costs for participants will be \$30, which will include insurance for the day.

**Bookings are required.**
